In order to use credit you must request the credit at the time of payment.

10. THE NO FIX NO PAY POLICY

GEFNET prides it's self on the quality service it gives and the wide variety of skills that we hold lets us solve lots of problems with no problem.... But! We are only human we don't know everything and sad but true we can't fix everything although you'd be hard pressed to find a problem we can't solve one way or another but if that time comes that we have no fix for you (a fix is also known as a solution) then you will pay nothing! Why pay us if we can't do the job right? You come to GEFNET for a solution and it's our policy that if we can't give you a solution you shouldn't have to pay for nothing unlike other places. This sounds great and all right? But sometimes what we consider a fix you may not. So that's the reason for this policy it is at our discretion what is considered a fix/solution or not and your rejection of said fix/solution is not subjected to the no fix no pay policy. If we have a solution for you and you reject it you will still be billed for the work done even if it's not a fix you like. If we offer you nothing no fix no solution then you will not pay anything. That's how the No Fix No Pay Policy works.

11. NEW MERCHANDISE/PARTS PRICE MARKUP

In the interest of full disclosure (because we are honest like that) GEFNET adds a 25% price markup on all New/Ordered parts/merchandise for the time and effort of payment/processing and etc. plus we like to make a very small profit on the goods we sale mind you 25% is a low markup in any industry. So don't worry we are not getting rich off of it. BUT! Unlike other businesses in again any industry we give you a choice! Don't like our markup you don't have to pay it! You are welcome to order your own parts or merchandise needed to complete your service request it saves me time and saves you money it's a win-win situation for both of us. I'll tell you what you need to buy and you buy it and bring it back to me or have it shipped directly to me. When you have me order the parts/merchandise you need the 25% markup is a small price to pay to not have to deal with ordering it yourself + plus you get my experience and expertise that you are going to get the right part and on time. Have it either way just let me know at the time of service what you wish to do.

12. USED GOODS

A lot of parts and merchandise comes through my shop every day and I resell and/or recycle the used goods when I can (and when I say recycle I mean I try to use it in other projects or I actually recycle it) I will offer a used good working part that is thoroughly tested and GeeK approved before I offer the New item in its place because Who wants to pay for something full price when you can get a just as good part for less. There are some people that prefer new over used and that's ok again you got options. If you prefer to have a new part or merchandise over a used one simply let me know I'll tell you if what I have

*GEFNET Terms of Service Agreement

in stock is new or used. And you can decide. Besides it's environmentally friendly to re-use something instead of buying it new!

If GEFNET cancels a service job due to the customer showing aggression, disrespect, making threats or observes a problem that can't be resolved with civility and professionalism the customer will be liable for the estimated cost of the canceled job and will need to make the payment for the job before his/her property is released if customer refuses to pay the property will be held for 30 days and then forfeited and it will become property of GEFNET and will be sold or parted out to pay for the outstanding balance plus any fees associated with that. Legal action will occur for any unpaid balance.

13.2 GEFNET reserves the right to demand payment upfront for any services performed if a customer has defaulted on a payment agreement in the past. Customers who default are not banned from using GEFNET services they will just have to pay upfront before service is performed. 14. PROPERTY RELEASE/ABANDONMENT

Property left over 30 days will be forfeited and become property of GEFNET Regardless if there is a balance due or not the balance will remain due/open even after the property is forfeited.

If you bring your computer in for service and it's not worth the expense to fix you may release ownership of the computer to GEFNET in exchange for any balance due if GEFNET agrees or if you just want it disposed of We will do that to BUT! Once you relinquish ownership of your property to GEFNET we own it and can do as we wish with it including repairing it and reselling it if we choose to if this happens you will have no right to any funds received from the sale or say in what happens with it unless a prearranged agreement is made.
